

Appendix A

Moreton Bay Regional Council Planning Scheme - Amendment Document - Part 4 Local Government Infrastructure Plan.

4 Local government infrastructure plan

4 Local government infrastructure plan

4.1 Preliminary

1. This local government infrastructure plan has been prepared in accordance with the requirements of the ~~Sustainable Planning Act 2009~~. **Planning Act 2016**.
2. The purpose of the local government infrastructure plan is to:
 - a. integrate infrastructure planning with the land use planning identified in the planning scheme;
 - b. provide transparency regarding a local government's intentions for the provision of trunk infrastructure;
 - c. enable a local government to estimate the cost of infrastructure provision to assist its long term financial planning;
 - d. ensure that trunk infrastructure is planned and provided in an efficient and orderly manner;
 - e. provide a basis for the imposition of conditions about infrastructure on development approvals.
3. The local government infrastructure plan:
 - a. states in Section 4.2 (**P**lanning assumptions) the assumptions about future growth and urban development including the assumptions of demand for each trunk infrastructure network;
 - b. identifies in Section 4.3 (**P**riority infrastructure area) the prioritised area to accommodate urban growth up to 2027;
 - c. states in Section 4.4 (**D**esired standards of service) for each trunk infrastructure network the desired standard of performance;
 - d. identifies in Section 4.5 (**P**lans for trunk infrastructure) the existing and future trunk infrastructure for the following networks:
 - i. stormwater (quality, quantity and riparian corridors);
 - ii. transport (roads and active transport);
 - iii. public parks and land for community facilities.
 - e. provides a list of supporting documents that assist in the interpretation of the local government infrastructure plan in ~~Section 4.6 (Extrinsic material)~~ **the Editor's note – Extrinsic Material**.

4 Local government infrastructure plan

4.2 Planning assumptions

1. The planning assumptions state the assumptions about:
 - a. population and employment growth;
 - b. the type, scale, location and timing of development including the demand for each trunk infrastructure network.
2. The planning assumptions together with the desired standards of service form a basis for the planning of the trunk infrastructure networks and the determination of the priority infrastructure area.
3. The planning assumptions have been prepared for:
 - a. the base date of 2016 and the following projection years ~~to accord with future Australian Bureau of Statistics census years~~:
 - i. mid 2021;
 - ii. mid 2026;
 - iii. mid 2031; and
 - iv. mid 2036.
 - b. the LGIP development types in column 2 that include the uses in column 3 of Table 4.2.1 Relationship between LGIP development categories, LGIP development types and uses.
 - c. the projection areas identified on Local Government Infrastructure Plan Map LGIP-1 PA in Schedule 3 - Local government infrastructure plan mapping and tables.

Table 4.2.1 Relationship between LGIP development categories, LGIP development types and uses

Column 1 LGIP development category	Column 2 LGIP development type	Column 3 Uses
Residential development	Detached dwelling Single dwelling	Caretaker's accommodation Community residence Dwelling house
	Attached dwelling Multiple dwelling	Community residence Dual occupancy Dwelling unit Multiple dwelling Relocatable home park Retirement facility Tourist park (Residential component)
	Other accommodation	Detention facility Hospital (Accommodation component) Hotel (Accommodation component)

4 Local government infrastructure plan

Column 1 LGIP development category	Column 2 LGIP development type	Column 3 Uses
		<p>Nature-based tourism (Accommodation component)</p> <p>Non-resident workforce accommodation</p> <p>Residential care facility</p> <p>Resort complex (Accommodation component)</p> <p>Rooming accommodation</p> <p>Rural worker's accommodation</p> <p>Short-term accommodation</p> <p>Tourist park (Tourist component)</p>
Non-residential development	Commercial	<p>Brothel</p> <p>Car wash</p> <p>Home-based business</p> <p>Motor sport facility</p> <p>Nature-based tourism (Non-accommodation component)</p> <p>Office</p> <p>Resort complex (Non-accommodation component)</p> <p>Sales office</p> <p>Telecommunications facility</p> <p>Veterinary services</p>
	Community	<p>Cemetery</p> <p>Child care centre</p> <p>Club (not including liquor licence)</p> <p>Community care centre</p> <p>Community use</p> <p>Crematorium</p> <p>Detention facility</p> <p>Educational establishment</p> <p>Emergency services</p> <p>Environment facility</p> <p>Function facility</p> <p>Funeral parlour</p> <p>Health care services</p> <p>Hospital</p> <p>Indoor sport and recreation</p> <p>Landing</p> <p>Major sport, recreation and entertainment facility</p> <p>Outdoor sport and recreation</p> <p>Outstation</p>

4 Local government infrastructure plan

Column 1 LGIP development category	Column 2 LGIP development type	Column 3 Uses
		Park Place of worship Theatre Tourist attraction Mobile dispersed (Community services)
	Industry	Air services Bulk landscape supplies High impact industry Low impact industry Major electricity infrastructure Marine industry Medium impact industry Parking station Port services Renewable energy facility Research and technology industry Service industry Special industry Substation Transport depot Warehouse Wholesale nursery Utility installation
	Retail	Adult store Agricultural supplies store Bar Club (including liquor licence) Food and drink outlet Garden centre Hardware and trade supplies Hotel (Non-accommodation component) Nightclub entertainment facility Outdoor sales Roadside stall Service station Shop Shopping centre

4 Local government infrastructure plan

Column 1 LGIP development category	Column 2 LGIP development type	Column 3 Uses
		Showroom Tourist park (Non-residential component) Market
	Rural resource	Animal husbandry Animal keeping Aquaculture Cropping Extractive industry Intensive animal industry Intensive horticulture Permanent plantation Rural industry Winery
	Work from Home	Home-based business
	Construction	Mobile dispersed (Trades)

4. ~~Details of the methodology used to prepare the planning assumptions are stated in the extrinsic material.~~

4.2.1 Population and employment growth

1. A summary of the assumptions about population and employment growth for the planning scheme area is stated in Table 4.2.1.1 - Population and employment assumptions summary.

~~Table 4.2.1.1 Population and employment assumptions summary~~

Column 1	Column 2				
Description	Assumptions				
	2016	2021	2026	2031	Ultimate development
Population	419,909	458,621	488,217	510,734	620,598
Employment	126,801	147,069	165,740	182,709	216,468

4 Local government infrastructure plan

Table 4.2.1.1 Population and employment assumptions summary

Column 1	Column 2					
Description	Assumptions					
	Base Date 2016	2021	2026	2031	2036	Ultimate Development
Population	444,385	491,444	537,198	582,512	622,925	823,816
Employment	118,925	139,279	154,767	168,054	180,762	236,184

2. Detailed assumptions about growth for each projection area and LGIP development type category are identified in the following tables in Schedule 3 Local government infrastructure plan mapping and tables:
 - a. for population, 'Table SC 3.1.1 Existing and projected population';
 - b. for employment, 'Table SC 3.1.2 Existing and projected employees'.

4 Local government infrastructure plan

4.2.2 Development

1. The ~~area of developable land within the PIA is identified in 'Table SC 3.1.3 Planned density and demand generation rate for a trunk infrastructure network'~~ and represents land designated for urban purposes that **developable area** is represented by zones relating to urban uses not ~~is not~~ affected by the following constraints:
 - a. 100yr (1% AEP) flood event extent (2012);
 - b. Road reserves;
 - c. Open space zoned land; and
 - d. Community purposes land not for residential use.
2. The planned density for future development is stated in 'Table SC 3.1.3 Planned density and demand generation rate for a trunk infrastructure network' in Schedule 3 - Local government infrastructure plan mapping and tables.
3. A summary of the assumptions about future residential and non-residential development for the planning scheme area is stated in Table 4.2.2.1 Residential dwellings and non-residential floor space assumptions summary.

Table 4.2.2.1 Residential dwellings and non-residential floor space assumptions summary

Column 1 Description	Column 2				
	Assumptions				
	2016	2021	2026	2031	Ultimate development
Residential dwellings	169,536	188,302	203,001	214,071	250,546
Non-residential floor space (m ² GFA)	5,373,147	6,242,712	7,041,723	7,793,757	9,001,183

Table 4.2.2.1 Residential dwellings and non-residential floor space assumptions summary

Column 1	Column 2					
Description	Assumptions					
	Base Date 2016	2021	2026	2031	2036	Ultimate development
Dwellings and accommodation	169,569	190,611	211,760	231,716	250,938	335,384
Non-residential floor space (m ² GFA)	6,035,607	6,967,252	7,621,259	8,221,128	8,809,505	12,278,484

4 Local government infrastructure plan

4. Detailed assumptions about future development for each projection area and LGIP development type are identified in the following tables in Schedule 3 Local government infrastructure plan mapping and tables:
 - a. for residential development, 'Table SC 3.1.4 Existing and projected residential dwellings';
 - b. for non-residential development, 'Table SC 3.1.5 Existing and projected non-residential floor space'.

4.2.3 Infrastructure demand

1. The demand generation rate for a trunk infrastructure network is summarised in Column 4 of Table SC 3.1.3 Planned density and demand generation rate for a trunk infrastructure network' in Schedule 3 Local government infrastructure plan mapping and tables.
2. A summary of the projected infrastructure demand for each service catchment is stated in:
 - a. for the stormwater network, 'Table SC 3.1.6 Existing and projected demand for the stormwater network'.
 - b. for the transport network, 'Table SC 3.1.7 Existing and projected demand for the transport network'.
 - c. for the public parks and land for community facilities network, 'Table SC 3.1.8 Existing and projected demand for the public parks and land for community facilities network'.

4.3 Priority infrastructure area

1. The **P** priority infrastructure area identifies the area prioritised for the provision of trunk infrastructure to service the existing and assumed future urban development up to ~~2027~~ **2036**.
2. The Priority infrastructure area is identified on Local Government Infrastructure Plan Map LGIP-1 - LGIP-76 PIA Extent Map.

4 Local government infrastructure plan

4.4 Desired standards of service

1. This section states the key standards of performance for a trunk infrastructure network.
2. ~~Details of the~~ Design standards ~~of service~~ for a trunk infrastructure network are identified in the extrinsic material.

4.4.1 Stormwater network

The Desired standards of service for stormwater are as follows:

1. Collect and convey stormwater flows for both major and minor flood events from existing and future land use in a manner that protects life and does not cause nuisance or inundation of habitable rooms or public utility infrastructure;
2. Design the stormwater network to comply with council's adopted standards identified in the ~~planning scheme~~ Planning Scheme Policy - Integrated Design;
3. Design trunk road crossing structures to provide an appropriate level of flood conveyance and immunity for a flood event in accordance with Council's adopted standards identified in the ~~planning scheme~~ Planning Scheme Policy - Integrated Design;
4. In accordance with the MBRC Planning Scheme, assumes development provides local infrastructure necessary to ensure the development does not result in any increase in flood risk off-site;

~~7. Meet the requirements of MBRC's Total Water Cycle Management Plan (TWCMP), which aims to meet the regulatory requirements of the Environmental Protection Act 1994 and Environmental Protection (Water) Policy 2009;~~

5. Meet "No Net Worsening" (NNW) target load objectives at a major catchment level prescribed in the Total Water Cycle Management Plan (TWCMP) when compared to the 2016 pollutant loads.

~~8. In accordance with MBRC's TWCMP, assumes development provides local infrastructure to meet the minimum design objectives for stormwater quality in Appendix 3 of the State Planning Policy 2014;~~

6. Meet the water quality objectives for receiving waters outlined in the Environmental Protection (Water and Wetland Biodiversity) Policy 2019 (EPP Water and Wetland Biodiversity).

~~9. Meet water quality objectives for receiving waters at all times; and~~

7. Implement planning and management of urban stormwater to comply with the design objectives as set out in the ShapingSEQ, South East Queensland Regional Plan 2017 for water sensitive communities, including Goal 4: Sustain (primarily Water Sensitive Communities and Biodiversity elements) and Goal 5: Live (primarily Working with Natural Systems).

~~10. Implement planning and management of urban stormwater to comply with the design objectives as set out in the SEQ Regional Plan 2009-2031 including Total Water Cycle Management and Desired Regional Outcomes for Water Management in the SEQ Regional Plan.~~

4 Local government infrastructure plan

4.4.2 Transport network

1. For the purpose of trunk road network planning, the Desired Standard of Service (DSS) provided by an element or combination of elements making up the trunk road, pedestrian/cycling and public transport systems in the region is to be assessed against service levels appropriate to the relevant “place types” ~~which form the basis for the Strategic Framework of the Moreton Bay Regional Council Planning Scheme.~~ The “place types” ~~for the Planning Scheme~~ have been grouped into three categories/types to reflect the broad type of access and transport integration intended for each of the areas across the ~~Moreton Bay Regional~~ Council area. This will assist in achieving key strategic outcomes for the ~~Moreton Bay Regional~~ Council area including integrated movement networks, streets that prioritise the needs for pedestrians and cyclists, embracing more sustainable travel behaviour, as well as ensuring a transport network that meets the required needs of other road users in appropriate locations.

The “place type” groupings include:

- a. Category Type 1: ~~Principal, Major and District~~ All Activity Centres;
- b. Category Type 2: Urban Neighbourhoods, Next Generation Neighbourhoods, Enterprise and Employment areas, Rural Townships, ~~and Coastal Communities~~ Coast and Riverlands, Suburban neighbourhoods;
- c. Category Type 3: ~~Suburban Neighbourhoods~~, Rural Residential areas, Rural areas, and Mountain Ranges, Forests and Waterways, ~~Key Extractive Resource areas, Special areas.~~

Table 4.4.2.1 Desired standard of service for the transport network

Measure	Planning criteria (qualitative standards)	Design criteria (quantitative standards)
Road network design/ planning standards	<p>The road network provides a functional urban and rural hierarchy that supports settlement patterns, commercial and economic activities, and freight movement. Design of the road system will comply with established codes and standards. In Activity Centres (place type 1) and to other key destinations the urban road network will promote safe, accessible and convenient walking and cycling connections, and effective public transport operations as part of an integrated and cohesive movement network.</p> <p>The integrated movement networks and streets will prioritise the needs for pedestrians and cyclists, embracing more sustainable travel behaviour, as well as ensuring a transport network that meets the required needs of other road users in appropriate locations.</p> <p>Commensurate with the highly urbanised environment within Activity Centres, a lower level of service for motor vehicles and freight is considered acceptable to promote an improved walking and cycling environment and the greater use of public passenger and active transport modes. In comparison a higher level of service is considered acceptable in “place type 2 and 3” where the balance of users requires a greater</p>	<ul style="list-style-type: none"> Local government road design and development manual/ standards/ codes in planning scheme and planning scheme policy Road Planning and Design Manual (2nd edition) developed by the Department of Transport and Main Roads Australian Standards AUSTROADS guides Level of Service for local government road links and intersections Desired standard of service place type categories for the transport network refer to Table 4.4.2.2 Level of Service (LOS) for Roads and Street per Place Type refer to Tables 4.4.2.2 Desired standard of service for functional local government road elements refer to Tables 4.4.2.3, 4.4.2.4, 4.4.2.5 and 4.4.2.6 for speed, access, intersections and turning facilities and parking for trunk road elements refer: <ul style="list-style-type: none"> Table 4.4.2.3 for speed Table 4.4.2.4 for access

Hierarchy	State	Off-road: 2.5m (minimum) both sides*		
	Arterial			
	Sub-arterial			
	District Collector			

*Where on the LGIP trunk active transport network, the LGIP Active Transport requirements are to apply.

Table 4.4.2.8 Desired Standard of Service for On-road Cycling Provision

Desired standard of service (Cycling Provision)		Place type category		
		Category Type 1	Category Type 2	Category Type 3
Hierarchy	Arterial	On-road (cycle lanes):# where:		
				Cycle provision (metres)
		60		1.5
		80		2.0
		100		3.5
	District^ Collector	On-road (cycle lanes):#* 1.5m both sides (minimum)		

Parking and safety strips (separating parking bays from cycle lanes) are in addition to these requirements.

* Contra-flow on-road facilities are not preferred, in exceptional circumstances with approval these should have a minimum width of 1.8 metres and should only be provided on 60kph roads or less.

^Where on the LGIP trunk active transport network, the greater of the two provisions is to be applied

4 Local government infrastructure plan

Table 4.4.2.9 Desired Standard of Service for Crossings

Desired standard of service (Crossings)		Place type category		
		Category Type 1	Category Type 2	Category Type 3
Spacing of crossings		200 metres	400 metres	600 metres (max 800 metres)
Hierarchy	Arterial	Signalised crossing, zebra or refuge If > 2 lanes, signalised only		
	Sub-arterial	Signalised crossing, zebra or refuge, raised platform or shared zone If > 2 lanes, signalised only		
	District Collector	Zebra or refuge, raised platform or shared zone Uncontrolled crossings only where sightlines are adequate		

Table 4.4.2.10 Desired Standard of Service for the Primary and Secondary Active Transport Network

Trunk Item	Width (clear of obstructions)
Primary Active Transport Route	<p>On-road cycle lane:*</p> <p>Minimum of 2 metres</p> <p>Off-road shared pathway:</p> <p>Minimum of 3 metres</p>
Secondary Active Transport Route	<p>On-road cycle lane:*</p> <p>Minimum of 1.5 metres</p> <p>Off-road shared pathway:</p> <p>Minimum of 2.5 metres</p>
<p>* On-road cycle lanes may require greater width depending on the speed environment as per Table 4.4.2.8 Desired Standard of Service for On-road Cycling Provision.</p>	

4 Local government infrastructure plan

Table 4.4.2.10 Trunk active transport - Cycle Desired Standard of Service requirements

Cycling facilities on trunk active transport routes treatment should be selected by preferencing the most preferred to least preferred based on the local context and surrounding environment		Maximum allowable length	Minimum number of facilities per corridor (directions)	Minimum required widths by speed environment			
				50km/h	60km/h	80km/h	100km/h
Most preferred	Off-road cycle lanes/veloways	Unlimited	1	3.0 - 4.0m	3.0 - 4.0m	3.0 - 4.0m	3.0 - 4.0m
	Shared paths (nature reserve)	Unlimited	1	2.5 - 4.0m	2.5 - 4.0m	2.5 - 4.0m	2.5 - 4.0m
Preferred	Separated cycle lanes	Unlimited	2	N/A	1.2 - 2.5m^	2.0 - 2.7m^	2.5 - 3.0m^
	Shared paths (road corridor)	Unlimited	1	2.5 - 3.0m	2.5 - 3.0m	2.5 - 3.0m	2.5 - 3.0m
	Protected two-way cycle lanes	Unlimited	1	3.0 - 4.0m	3.0 - 4.0m^	3.0 - 4.0m^	3.0 - 4.0m^
Least preferred	On-road cycle lanes	Unlimited	2	N/A	1.2 - 2.5m*	2.0 - 2.7m*	N/A
	On-road peak period cycle lanes	2km	2	N/A	1.2 - 2.5m*	2.0 - 2.7m*	N/A
	Contra-flow bicycle lanes	0.5km	1	1.5 - 2.5m*	1.5 - 2.5m*^	N/A	N/A

*Dimension given is per direction of travel

^Requires physical separation such as a kerb

4 Local government infrastructure plan

Table 4.4.2.11 Trunk active transport - Pedestrian Desired Standard of Service requirements

Pedestrian facilities treatment should be selected by preferencing the most preferred to least preferred based on the local context and surrounding environment		Maximum allowable length	Minimum number of facilities per corridor (directions)	Minimum required widths by speed environment			
				50km/h	60km/h	80km/h	100km/h
Most preferred	Shared paths	Unlimited	1	2.5 - 3.0m	2.5 - 3.0m	2.5 - 3.0m	2.5 - 3.0m
Preferred	Footpaths, two sides	Unlimited	2	1.2 - 2.0m	1.2 - 2.0m	1.2 - 2.0m	1.2 - 2.0m
Least preferred	Footpaths, one side (low demand areas)	Unlimited	1	1.2 - 2.0m	1.2 - 2.0m	1.2 - 2.0m	1.2 - 2.0m

4.4.3 Open space Public parks and land for community facilities network

The Desired Standards of Service for the trunk are outlined below.

1. Provide an accessible network of public parks and land for community facilities ~~network community facilities~~ that meets the needs of residents and visitors in accordance with the standards in Table 4.4.3.5, accessibility standards in Table 4.4.3.1 and 4.4.3.6 and rates of provision identified in Tables 4.4.3.2 and 4.4.3.7. The targets identify the expected quantum of land required to meet community demands for public parks and land for community facilities, based on rate of population and are related to the place types:
 - a. AC: Activity Centre
 - b. UN: Urban Neighbourhood
 - c. NGN: Next Generation Neighbourhood
 - d. SN: Suburban Neighbourhood
 - e. RR: Rural Residential
 - f. RT: Rural Township
 - g. CC: Coastal Communities
 - h. R: Rural
 - i. MFW: Mountain Ranges, Forests and Waterways
 - j. KER: Key Extractive Resource Areas
 - k. CR: Coast and Riverlands
 - l. EEA: Enterprise and Employment Areas
 - m. SA: Special Areas.

4 Local government infrastructure plan

2. The provision targets in Table 4.4.3.2 and Table 4.4.3.7 are intended to be flexible, as many parks provide a number of functions to the community and service varying areas however the minimum land area of the park is to be maintained.

2. Ensure land for public parks and land for community facilities has:
 - a. a minimum land size as identified in Table 4.4.3.2 and Table 4.4.3.8;
 - b. a configuration, road frontage, slope, and acceptable level of flood immunity in accordance with the standards identified in Table 4.4.3.3 and Table 4.4.3.5 as well as Council's adopted standards identified in the planning scheme located in each of the relevant zone codes.
3. Embellish open space public parks to complement the type and purpose of the public park as identified in Table 4.4.3.4:
 - a. LR: Local Recreation Park (including Foreshore);
 - b. LR+: Local Recreation (applicable only to NGN; UN; AC place types);
 - c. DR: District Recreation Park (including Foreshore);
 - d. RR: Regional Recreation Park (including Foreshore);
 - e. DS: District Sport Park;
 - f. RS: Regional Sport Park;
 - g. DC: District Civic Park;
 - h. RC: Regional Civic Park.

Table 4.4.3.1 Accessibility standards for public parks

Park Type	Place Type													Accessibility Standard
	AC	UN	NGN	SN	RR	RT	CC	R	MFW	KER	CR	EEA	SA	
Local Recreational Park	•	•	•	•										400m
						•	•							800m
					•			•	•	•	•	•	•	No Standard
District Recreation Park	•	•	•	•		•	•							2.5km
					•							•		3.5km
								•	•	•	•		•	No Standard
Regional Recreation Park	•	•	•	•	•	•	•	•	•	•	•	•	•	10km
District Sports Park	•	•	•	•										3km
					•	•	•					•		5km
								•	•	•	•		•	No Standard
Regional Sports Park	•	•	•	•	•	•	•	•	•	•	•	•	•	15km
	•					•	•							Within district centre

4 Local government infrastructure plan

District Civic Park		•	•	•	•			•	•	•	•	•	•	No Standard
Regional Civic Park	•													Within major centre
		•	•	•	•	•	•	•	•	•	•	•	•	No Standard

Note - The accessibility standard is measured "as the crow flies" however should consider barriers like roads, rivers and rail lines which limit or sever accessibility.

Table 4.4.3.2 Rate of land provision for public parks

4 Local government infrastructure plan

Public parks and their embellishments should be designed to ensure they can accommodate and appreciate a range of the following functions:

- Nature appreciation areas
- Active recreation areas
- Passive recreation nodes
- Outdoor recreation opportunities
- Youth spaces
- Social gathering spaces
- Activation and event space
- Water quality solutions compatible with recreation uses

Park name signage	●	●	●	●	●	●	●	●
Barbeque	●		●	●	●	●	●	●
Event/ Performance space (i.e. stage, amphitheatre)			●	●			●	●
Gateway statement			●	●			●	●
Outdoor recreation elements (i.e. proprietary climbing equipment)			●	●				
Dog off leash areas	P		P	P				
Paddle and recreational boating facilities (e.g. launch point for canoes, fishing cleaning tables) foreshore parks	P	P	P	P				
Public amenities (toilets)			●	●	●	●		●
Private vehicle movement and internal parking			●	●	●	●		
Formal sports fields/courts/surface (lighting & irrigation)					●	●		
Changing facilities (sports)					●	●		

Note - LR+ includes local recreation parks in place types NGN, UN and AC, P - preferred if meeting locational requirements, S - small scale play elements, L - large play elements

Table 4.4.3.5 Desired standard of service for land for community facilities

Measure	Planning criteria	Design criteria
Functional network	A network of land for community facilities is established to provide for the development of community facilities.	<ul style="list-style-type: none"> • Land for community facilities is provided at a local, district and regional level. • Land for community facilities provides for development of community facilities.

4 Local government infrastructure plan

Measure	Planning criteria	Design criteria
Accessibility	Land for community facilities is located to ensure adequate pedestrian, cycle and vehicle access. New land for community facilities is located within an appropriate place type in the Strategic Framework.	<ul style="list-style-type: none"> Accessibility design standards are identified in Table 4.4.3.6.
Rate of provision: <ul style="list-style-type: none"> Minimum size Land quality/suitability: <ul style="list-style-type: none"> Maximum grade Flood immunity 	Land for community facilities is provided to a standard that supports a diverse range of community services - promoting activities to meet community expectations. This includes ensuring land is of an appropriate size, configuration and slope, and has an acceptable level of flood immunity.	<ul style="list-style-type: none"> The rate of provision for community facilities is identified in Table 4.4.3.7. The size of land/GFA for community facilities is identified in Table 4.4.3.8. The maximum gradient for land for community facilities is a site by site assessment. The minimum flood immunity for land for community facilities is all facilities to be located above 1% AEP.
Infrastructure design/performance standards	Maximise opportunities to co-locate community facilities in proximity to other community infrastructure, transport hubs and valued environmental and cultural assets.	<ul style="list-style-type: none"> Local government standards in planning scheme and planning scheme policies. Australian Standards.

4.5 Plans for trunk infrastructure

- The plans for trunk infrastructure identify the trunk infrastructure networks intended to service the existing and assumed future urban development at the desired standard of service ~~up to 2031~~.

4.5.1 Plans for trunk infrastructure maps

- The existing and future trunk infrastructure networks are shown on the following maps in Schedule 3 - Local government infrastructure plan mapping and tables:
 - Plans for trunk infrastructure - Transport (LGIP-1 - LGIP-76 TN)
 - Plans for trunk infrastructure - Active transport (LGIP-1 - LGIP-76 AT)
 - Plans for trunk infrastructure - Public parks and land for ~~and~~ community facilities (LGIP-1 - LGIP-76 PC)
 - Plans for trunk infrastructure - Stormwater (LGIP-1 - LGIP-76 SW)
- The State infrastructure forming part of the transport trunk infrastructure network has been identified using information provided by the relevant State infrastructure supplier.

4.5.2 Schedule of works

- Further details of the existing and future trunk infrastructure networks are identified in the electronic Excel schedule of works model which can be viewed here: ~~MBRC Infrastructure strategies~~ <Link to MBRC Planning scheme background studies>
- The future trunk infrastructure ~~is identified in the following sections~~, derived from the SOW model, is summarised in the following tables in Schedule 3 - Local government infrastructure plan mapping and tables:
 - for the stormwater network, Table SC 3.2.1
 - for the transport network, Table SC 3.2.2
 - for the public parks and land for community facilities network, Table SC 3.2.3.

RD32	Leitchs Road, Brendale Realignment Kremzow Road to Stanley Street, 2 lanes, undivided	2016	\$26,740,515
RD03	Mango Hill Ring Road, Mango Hill New corridor for local connectivity	2016	\$14,634,197
RD02	Oakey Flat Road, Morayfield Intersection and Corridor Upgrade. Morayfield Road to Clark Road intersection upgrade and localised widening	2016	\$22,856,393
INT02	Old Gympie Road/Hughes Road, Kallangur Upgrade of intersection to signals	2016	\$306,038

4 Local government infrastructure plan

INT01	Old Gympie Road/Macarthur Drive, Kallangur —Localised widening and Upgrade of intersection to signals	2016	\$826,304
RD07	Old North Road, Warner —Duplication of Old North Road and intersection upgrades—South Pine to Kremzow	2016	\$10,290,320
RD27	South Pine Road, Everton Hills —Duplication of South Pine Road between Camelia Avenue and Queens Road	2016	\$11,177,406
INT29	Welsby Parade/Kangaroo Avenue, Bongaree —Intersection works to improve safety and amenity	2016	\$1,258,031
RD01	Youngs Crossing Road, Joyner —Intersection and Corridor Upgrade. Oxford Street to Francis Road widening	2016	\$9,744,534
INT31	Smiths Road, Del Rosso Road intersection, Caboolture —Upgrade of existing signals to improve safety for pedestrians	2017	\$213,829
INT24	Bunya Road/Jinker Track, Bunya —Upgrade of intersection to signals	2018	\$1,069,143
RD33	Eastern Collector Road, Strathpine (Land)	2018	\$682,500
RD31	Boundary Road, North Lakes —Duplication of Boundary Road—Bruce Highway to NSUA	2019	\$573,450
RD30	Old North Road, Warner —Duplication of Old North Road and intersection upgrades—Lavarack to Everest	2019	\$5,578,983
RD08	Old North Road, Warner —Duplication of Old North Road and intersection upgrades—Lavarack to Kremzow	2019	\$6,113,555
INT33	Samsonvale Road/Kentwood Drive —Intersection upgrade including approach lanes between Dundee Street and Elmwood Drive for capacity and drainage improvements	2019	\$1,574,556
RD10	Buchanan Road, Morayfield —Morayfield Road to Bruce Highway intersection upgrade and localised widening, including new rail bridge	2021	\$108,822,453
INT04	Burpengary Road/New Settlement Road, Burpengary —Signalisation, bridge works and localised widening	2021	\$18,438,810
RD11	Caboolture River Rd, Morayfield/Upper Caboolture —Grant Road to Morayfield Road intersection upgrade and localised widening	2021	\$26,268,010
RD09	Graham Rd, Morayfield —Lomandra Drive to Buchanan Road Duplication	2021	\$4,124,720
INT07	Kremzow Road/Leitchs Road, Brendale —Upgrade of signals	2021	\$941,068
RD12	NSUA Mango Hill to Griffin, Mango Hill —New 2 lane arterial road and corridor between Mango Hill and Griffin, including improvements to the existing section of Dohles Rocks Road to the Bruce Highway	2021	\$72,834,639
INT06	Samsonvale Road/Lavarack Road, Bray Park —Upgrade of Signals	2021	\$566,171
INT05	South Pine Road/Camelia Avenue, Everton Hills —Intersection reconfiguration and upgrade to Signals	2021	\$3,305,214
INT08	South Pine Road/Plucks Road, Arana Hills —Upgrade of signals	2021	\$826,304
INT32	Griffith Road/Newport Drive, Newport —Signalisation of intersection	2022	\$1,114,081
INT20	Klingner Road/Boardman Road, Kippa Ring —Signalisation of intersection	2023	\$3,153,059

4 Local government infrastructure plan

RD06	West Petrie Bypass – Stage 1, Joyner Duplication of Youngs Crossing Road extending from Dayboro Road to South of Protheroe Road to increase capacity and provide flood immunity	2023	\$91,596,451
INT11	Boundary Road/Narangba Road, Dakabin Localised widening and intersection signalisation	2026	\$4,223,329
RD16	Burpengary Road and Station Road, Burpengary O'Brien Road to Rosehill Drive intersection upgrade and localised widening	2026	\$4,108,743
RD33	Eastern Collector Road, Strathpine (Works)	2026	\$3,066,673
RD14	Lindsay Rd, Morayfield Morayfield Rd to O'Brien Road intersection upgrade and localised widening	2026	\$1,882,492
RD15	Old Gympie Road, Dakabin Kallangur – Boundary Road to Anzac Ave intersection upgrade and localised widening	2026	\$24,947,107
RD18	Brown Street, Caboolture New 2 Lane Sub Arterial Road between Ardrossan Rd and Pettigrew Street	2031	\$23,504,008
RD17	Cundoot Creek, South Caboolture New 2 lane arterial road between Buchanan Road and Lower King Street	2031	\$56,351,447
INT12	Mewett Street/Lee Street/Summerfields Drive, Caboolture Reconfiguration and upgrade of intersection to signals	2031	\$341,624
INT13	Oakey Flat Road/Burbury Road, Morayfield Localised widening and upgrade of intersection to signals	2031	\$6,525,022
TOTAL			\$582,507,616

4.5.2.3 Active transport network

Table 4.5.2.3.1 Schedule of works for the active transport network

Column 1	Column 2	Column 3	Column 4
Map reference	Trunk infrastructure	Estimated timing	Establishment cost ^(4.8)
Red5	Anzac Avenue/Boardman Road, Kippa Ring Boulevard treatment and upgrade of Boardman Road/Elizabeth Ave intersection between Klinger Road and Kapella Street.	2016	\$569,759
DB6	Bay Ave, Deception Bay Boulevard treatment, path widening and crossings. Includes bus bays.	2016	\$872,654
St5	Bells Pocket Road, Bray Park From Gympie Road to Robel Street including intersection with Gympie Road and crossings.	2016	\$207,198
K1	Boulevard Treatment Anzac Ave, Kallangur From School Rd to Duffield Rd.	2016	\$501,814
BE4	Burpengary Road, Burpengary On road bike lanes from Crendon Street to Henderson Road. Associated with planned road improvements.	2016	\$544,762

4 Local government infrastructure plan

HD4	Chinook Street, Everton Hills Provide off-road path linking existing Cabbage Tree Creek corridor with Old Northern Road pathway.	2016	\$87,928
N1	Continuation of shared path along Omara Rd reserve, Narangba , including crossing of New Settlement Road.	2016	\$313,335
CN1(a)	Dances Road, Caboolture North D'Aguilar Highway to Cottrill Road. Includes on-road bike lanes.	2016	\$891,767
Red8	Duffield Road, Margate On-road bike lane marking (lanes already exist) between Margate Parade and Victoria Ave.	2016	\$201,967
Cab7	Elliott Street and Morayfield Rd, Caboolture Between King Street and Caboolture River	2016	\$1,643,678
Red4	Esplanade, Redcliffe Path upgrade and connection to cross streets between Klinger Road and Shields Street.	2016	\$144,145
Cab5(b)	George Street, Caboolture Between Hasking Street and Bertha Street. Includes on-street bike lanes.	2016	\$82,807
DB3	Gynthur Road, Rothwell New path and on-road bike lanes. Includes crossing of Anzac Avenue.	2016	\$555,899
Cab5(a)	Hasking Street and George Street (between Hasking Street and King Street), Caboolture Includes on-street bike lanes	2016	\$351,079
Cab6	King Street, Caboolture Boulevard treatment between George Street and Beerburum Road. Including mid-block connection between King Street and Elliott Street.	2016	\$139,898
CabS2(a)	Market Drive/Dickson Rd/William Berry Drive, Morayfield New path and on-road bike lanes. Includes rail crossing, Visentin Road (to Morayfield Station) and Buchanan Rd to Kirkcaldy St.	2016	\$1,939,995
Cab3	Matthew Terrace, Caboolture Associated with station precinct re-development.	2016	\$750,567
Cab2(b)	McKean Street, Caboolture Beerburum Road to Manley Street. Path widening and on-street bike lanes.	2016	\$308,716
CabS1(a)	Morayfield Road, Morayfield From Caboolture River to Market Drive. Includes on-road bike lanes.	2016	\$319,604
CabS1(b)	Morayfield Road, Morayfield From Caboolture River Road to Station Road.	2016	\$161,816
DB2	Morris Road, Rothwell Deception Bay Road to Gynther Road, on-road bike lanes. New and upgraded paths.	2016	\$638,393
K2	Narangba Road/Anzac Ave, Kallangur On-Road bike lanes from Hanlon Road to Anzac Ave, including Anzac Ave. Intersection improvements.	2016	\$191,306
Cab5(c)	New midblock connection from Hasking Street, Caboolture to East Street , through post office site.	2016	\$32,002
NL2(a)	New off-road path from North Lakes Drive to Discovery Drive, North Lakes .	2016	\$236,534
Red6	Nottingham Street, Kippa Ring New path and bicycle awareness zone between Chelsea Street and Fleet Drive.	2016	\$690,630
CN2(b)	Pumicestone Road, Caboolture North D'Aguilar Highway to Reserve Drive, as part of planned road improvements. Includes on-road bike lanes.	2016	\$1,681,126

4 Local government infrastructure plan

St3	Reinstate and upgrade flood-affected sections of South Pine River Shared Path, Strathpine.	2016	\$118,267
Cab2(a)	Rowe Street, Caboolture—Upgrade connecting McKean Street and Hayes Street, including a path along Bury Street drain.	2016	\$836,376
St4(a)	Samsonvale Road, Bray Park East—Upgraded shared path from Rail Crossing to Bland Street, including rationalisation of road space across bridge.	2016	\$729,364
St1	South Pine Road Rail Crossing, Brendale—Improve facilities at rail crossing and approaches.	2016	\$89,614
Red1	Sutton Street, Redcliffe—Continuation of boulevard treatment from Anzac Avenue to Mall Way.	2016	\$380,410
CN1(b)	Upgrade Pumicestone Road/Old Gympie Road intersection, Caboolture North—Including active transport priority and crossings.	2016	\$90,181
G1	Brays Road, Griffin—From Wellington Road to Cairns Road including Bruce Highway overbridge.	2021	\$12,457,264
CabE1	Bribie Island Road, Caboolture—Highway crossing and access to airport industrial estate. Includes access to Beachmere Rd.	2021	\$448,836
Cab2(c)	Bury Street, Caboolture—From Lang Street to Manley Street.	2021	\$411,964
HD6	Cabbage Tree Creek to Bunya Road, Everton Hills—Path along the Cabbage Tree Creek corridor parallel to Collins Road from the James Street road reserve to opposite Cooloola Court, a bridge over Cabbage Tree Creek and an off-road path from Cabbage Tree Creek to Bunya Road, Everton Hills.	2021	\$567,562
CabS3	Caboolture River Road, Morayfield—From Cresthaven Drive to Morayfield Road. Includes on-road bike lane as part of planned road improvements.	2021	\$634,466
AC1	Connection of off-road path on Albany Creek Road, Albany Creek to Albany Creek Service Road (Keong Rd to Wruck Cres).	2021	\$324,714
HD3	Dawson Parade/Pimelia Street, Arana Hills—Formalise footpaths, connect to off-road links, provide on-road bike lanes and/or awareness zones between Patricks Road to South Pine Road.	2021	\$324,104
K3	Dohles Rocks Road, Murrumba Downs—Between Goodrich Road East and Wagner Road. Shared paths and on-road bike lanes, associated with planned road improvements.	2021	\$597,237
St6	Dorothy Street Precinct, Strathpine—New link between Flynn Lane and Learmonth Street associated with a new road proposal.	2021	\$319,320
HD5	Ferny Way, Ferny Hills—Provide on-road bike lanes.	2021	\$65,282
P3	Frenchs Road, Petrie—On-road bike lanes and intersection upgrades between Beeville Rd and Rue Montaigne.	2021	\$317,199
St7(b)	Leitchs Road, Brendale—New path and on-road bike lanes between South Pine Road and Cribb Road.	2021	\$1,042,948
St7(a)	Leitchs Road, Brendale—On-road bike lanes and new path on western side between Kremzow Road to South Pine Road, including South Pine Road Crossing.	2021	\$729,409
Cab9	Lower King Street, Caboolture—From Mewett Street to Bruce Highway. Includes on-road bike lanes.	2021	\$1,456,011

4 Local government infrastructure plan

Cab8	Lynfield Dr, Caboolture —Between Yaldara Ave and Warner Street, including Warner Street to Watt Street. Including on-road bike lanes.	2021	\$896,816
K5	Marsden Road, Kallangur —On-road bike lanes between Narangba Road and Anne Street.	2021	\$238,688
N2	New Settlement Road, Narangba —New shared-path between Young Road and Banyan Street, connecting to off-road facilities.	2021	\$293,836
NL1	North Lakes Drive, North Lakes —Active transport priority and crossings from Memorial Drive to Kerr Road East.	2021	\$756,749
K4	Ogg Road/ McCilintock Drive, Murrumba Downs —New path on eastern side from Goodfellows Road to Brays Road.	2021	\$468,915
NL2(b)	Path upgrade and on-road bike lanes along Discovery Drive, North Lakes and Halpine Drive, Mango Hill , including Anzac Ave intersection.	2021	\$7,271,888
St2	Railway Avenue, Strathpine —Upgrade path and provide bicycle awareness from Samsonvale Road to Hall Street.	2021	\$704,873
P2	Rue Montaigne, Petrie —On-road bike lanes between Frenchs Road to Woonara Drive (connects to off-road paths).	2021	\$191,766
St4(b)	Samsonvale Road, Bray Park —Upgrade substandard sections of path between Bland Street and Old North Road.	2021	\$729,364
P1	Young Street, Petrie —Bicycle awareness marking.	2021	\$77,524
CabE2(b)	Buckley Road, Burpengary East —Path upgrade and on-road bike lanes between North East Business Park and Eastern Service Road.	2026	\$3,794,746
CabE2(a)	Coach Road East, Burpengary East —Path upgrade and on-road bike lanes between North East Business Park and Eastern Service Road.	2026	\$5,073
CabS5	Grogan Road, Morayfield —Path upgrade to Aquatic Centre. Including bicycle awareness on Grogan Road.	2026	\$231,676
Red2	John Street Precinct, Redcliffe —Connecting Anzac Ave to Humpybong Creek paths.	2026	\$548,226
St7(c)	Leitchs Road, Albany Creek —New river crossing and approaches to Leitchs Road South.	2026	\$11,841,431
NL3	Memorial Drive/Discovery Drive, North Lakes —Formalise on-road bike lanes from North Lakes Drive to Davenport Parade, addressing conflict points.	2026	\$218,240
DB1	Moreton Downs Drive, Deception Bay —Path widening and on-road bike lanes between Arina Place and Deception Bay Road.	2026	\$755,073
HD2	Patricks Road, Arana Hills —Formalise footpaths, connect to off-road links, provide on-road bike lanes and/or awareness zones between Ferny Way and Dawson Parade.	2026	\$665,744
Red7(a)	Porter Street, Redcliffe —New path and on-road bike lane.	2026	\$636,763
Red7(b)	Portwood Street, Redcliffe —New path on south side and on-road bike lanes.	2026	\$333,406
NL4	Saltwater Creek Connection, North Lakes —Upgrade path on Bounty Blvd. Provide new shared path across Saltwater Creek between Bounty Blvd. to Moreton Downs Drive (Deception Bay).	2026	\$2,712,499

4 Local government infrastructure plan

CabS4	Walkers Road, Morayfield – Creek Crossing upgrade and on-road bike lane between Fennell Ct and Koala Drive.	2026	\$2,314,038
CabS6	Wimbledon Drive, Morayfield – Provision of shared paths.	2026	\$95,866
HD1	Woodhill Road/Hutton Road/Caesar, Ferny Hills – Formalise footpaths, connect to off-road links, provide on-road bike lanes and/or awareness zones between Bunya Road and Patricks Road.	2026	\$689,226
BE3(b)	Arthur Drewett Drive, Burpengary – Connection from Bruce Highway overbridge to Old Bay Road.	2031	\$473,541
BR1	Bestmann Road East/Bribie Island Road, Sandstone Point – Upgrade footpaths and provide on-road bike lanes along Bestmann Road East from Lachlan Crescent to Bribie Island Road, and Bribie Island Road to Bribie Island Bridge approaches from Bestmann Road East.	2031	\$77,033
BE3(a)	Station Road/Progress Road, Burpengary – Intersection improvements at Station Road and path across Old Gympie Road and Bruce Highway.	2031	\$13,207,611
Total			\$86,230,517
