

ANIMAL MANAGEMENT PLAN

Community Engagement Summary - Phase 1

Moreton Bay Regional Council is developing an Animal Management Plan to help our communities and pets live harmoniously and safely together and protect our natural environment.

To help shape the plan, we asked our communities for feedback via a survey between 8 November and 5 December 2021. During this period, we also engaged with key stakeholders such as industry groups.

Insights from this first phase of engagement will help inform the development of the draft Animal Management Plan.
